4. Learning

4.1 We believe it is in the best interest of children engaging in remote learning to provide structured and sequenced remote learning, replicating their classroom experience as closely as possible, however we recognise that switching to remote learning will affect students and their families in a number of ways.

4.2 The learning methods selected will be based on:

- Being realistic and focusing on what is most important, recognising that remote learning can be more difficult for many students and providing appropriate support.
- Allowing flexibility in the completion of activities, understanding that families may have more than one child sharing home resources and that workspaces may be shared with multiple family members, including by designing activities that are accessible for all students, including those working offline.
- Ensuring remote education practices are inclusive including by tailoring the remote curriculum for students with SEND

4.3 We will use a range of delivery methods including:

- Directed online learning - Sign-posting to online learning resources
- Hard copy learning – Provision of hardcopy resources to complete offline
- Remote live lessons – Lesson delivered to camera, students log in to a platform to participate.
- Remote pre-recorded lessons - Staff delivery of lessons to camera (with no student presence) and made available to students online to access in their own time

- 6.2. For students who cannot access digital devices at home, we will, where possible, apply for support from the government to provide devices.
- 6.3. If a student is provided with **school** owned equipment, the student and their parent/carer will need to sign the *[Acceptable Use Agreement]* on receipt of the equipment.

7. Remote Learning Platforms & Online Learning Tools

- 7.1. The Use of Remote Learning Platforms and Online Learning Tools is key to our ability to offer flexibility in our learning provision and offers the chance for greater efficiency, improved connectivity and collaboration between staff, **governors** and students, and flexible access to education for vulnerable and hard to reach children, supporting safeguarding and wellbeing agendas.
- 7.2. These tools will further support students who may currently be learning through Virtual Schools, or in hospital, to feel more integrated into the **school** community.
- 7.3. We will ensure that the platforms and tools we use are secure, maintain privacy and have enterprise level security.

8. Safeguarding

- 8.1. Safeguarding and child protection remains as important in this environment as anywhere else, and staff members will apply the **school's** safeguarding guidance to remote learning, just as they would to classroom working - staff who become aware of any child protection concerns will continue to follow established safeguarding procedures.
- 8.2. We will adhere to all additional guidance on delivering learning for those children access provision at home.
- 8.3. When working remotely, we will ensure that the current Child Protection & Safeguarding Policy along with any addendums is adhered to at all times.

- 9.3 Recording individuals will generate personal data including student images, names, contributions, login and contact details and will be protected, processed and retained in the same way as all personal data, in line with the school's Data Protection Policies and Privacy notices and in accordance with our other policies including Acceptable Use, Off Site Working and Bring Your Own Device policies, as well as our Retention Schedule.
- 9.4 The Data Protection Act, UK GDPR and our policies require us to assess the lawful basis for Data Sharing and the Data Protection suitability of providers of services/platforms, and this information will be published in our Privacy Notices.
- 9.5 We will carry out DPIAs of third party processors supplying remote and online learning and/or communications platforms and for any other processing deemed to require such.
